Easily the best book in our business library

By Gerald Matthews

I bought this book. I read it. I bought five more copies. I gave them to our various A/P groups around the

world.

Easily the best book in our business library. Clearly written, practical, and full of common sense (remembering that common sense is a lot less common than you'd think). These truly are the best practices. Mary also includes the reason they're best practices, the nearly best practices, and the worst practices in Accounts Payable.
