A horrifying tale that makes complete sense in an upside down world marred by generations of trauma
By shireen611

Part Edgar Allen Poe psychological thriller (horrifying) and part modern day political thriller (educational). This book was hard to put down. Benmalek connects that personal human desire for revenge to a historical pattern of occupation and domination that continues to play itself out on the global stage, to no good result. He illustrates the psychological patterns of domination and control that continue to repeat themselves in the both the internal and outsider politics of the Middle East.

Gripping Good Book!
By Christine E Manke

A gripping story of how far a man will go to save his daughter who is abducted. The story conveys the terror that many Algerians live with on a daily basis, and reveals some of what Algerians experienced during the "troubles" since the 1980's. The book is well written with a strong affect component to it. I felt in my gut the pain and terror the father went through in attempting to rescue his daughter.
