Required Text but not the worst ever

By Gabrielle

This book was required for my business communications course for my MBA. The value edition comes as loose leaf pages and you will need to have a three ring binder to hold it together (about a 1" binder will work). This package also comes with the information to access MyBComm Lab, check that your course requires this.

The text was easy to understand and follow along with and there are all kinds of examples included in the text from real world businesses. The homework items included after each chapter were challenging but taught good lessons / ideas.2 of 2 people found the following review helpful.

Who knows if I like it, I can't read it... If you plan to rent the book and read on your computer, think again. This book is only available to read in the app, and not the windows app. So much for 'Read on any Device'.2 of 2 people found the following review helpful.
