This is why on-line e-book *Dire : Born By Andrew Seiple* ends up being most wanted.

DIRE : BORN BY ANDREW SEIPLE PDF

No memory, no resources, no secret lair, and no time to find her feet; this is the story of a self-made villain, and her fall into strife. Fleeing from unknown enemies and an early death, she emerges into a city gone dark in the aftermath of a complete systems failure. Hounded by heroes, menaced by gangs, and helped by the most unlikely of allies, she claws her way up from weakness to strength and works to build a better future for those who deserve it. To survive, she'll need strength to stand toe-to-toe against secretly supernatural foes, compassion to work with the dregs and outcasts of a broken society, and cunning to outwit intelligences beyond human ken. The challenge is great... but she is Dire. And Icon City will never be the same again. This is the first novel from the "Tales from the Teslaverse" project.

Villain or Hero??

By Titus Octavian

Good Supervillains (pun intended) are hard to find, but I think we have a winner here.

After "Soon I will be Invincible" and "Memoirs of a D-List Supervillain" this is only the third book in this genre that I really liked.

Solid story with some good twists, a villains journey, loss and triumphs-the book had it all.

Found the book with KU, will proceed to buy it and will happily wait for the next book in the series.

A Page Turner with Heart

By C. Tucker

This is an origin story which throws you right in the middle of things. At first readers are thrown into a mess of action that they don't understand. Who is Dire, Why are people trying to kill her, what is going on?

These questions are slowly hinted upon as the story progresses. But more important than the backstory of the main character, is her slow development into a person of increased purpose and responsibility and her ties to

the other characters around her. Slowly we learn more about this world where superpowers exist as a normal facet of life. But it becomes quickly apparent that just like the world we live in, the Teslaverse is not a paradise and there are no end to the injustices around that mix in with the good. We see these injustices (which are relevant to our world as well) from a fresh set of eyes through Dire, and it makes them that much more ugly because of this. Though the world presented here is dark, that darkness isn't all consuming or oppressive feeling. There are many light hearted moments and humor sprinkled through as well, even when things are at their worst. The story has a lot of heart

Another thing I liked about this story which slowly crept up on me, was that the characters all seem to have varied dialogue. I found myself giving them different voices in my head as I read and they all felt like separate people with their own unique hangups.

I don't mean to imply that everything about this story is perfect. Though the major plotlines were tied up, the ending was a bit abrupt feeling. And I felt like the Author could have done a bit more to explain the details surrounding the cause of the big power outage. And some of the action segments seemed to go on longer than I would have liked. But any faults I found were more than made up for by how engrossing the story was.

I recommend giving this story a try.

Great read, Looking forward to more

By Lillian Zhang

DIRE: BORN is a great story in and of itself, with relatable characters, a well-developed world, and a gripping plot. However, its real strength is as an origin story for the protagonist, Doctor Dire - the ending feels more like a beginning, promising many more adventures to come.
