DOGSBODY BY DIANA WYNNE JONES PDF

A funny, heartbreaking, stunning book by the legendary Diana Wynne Jones—with an introduction by Neil Gaiman.

The Dog Star, Sirius, is tried - and found guilty - by his heavenly peers for a murder he did not commit. His sentence: to live on the planet Earth until he can carry out a seemingly impossible mission - the recovery of a deadly weapon known as the Zoi. The first lesson Sirius learns in his lowly earthly form is that humans have all the power. The second is that even though his young mistress loves him, she can't protect either of them. The third - and worst - is that someone out there will do anything to keep Sirius from finding the Zoi. Even if it means destroying Earth itself. This funny, heartbreaking, stunning book features an introduction by Neil Gaiman, an avid fan of Diana Wynne Jones.

Deserves to be a classic

By A. Reid

Dogsbody by Diana Wynne Jones was an absolute page-turner. I was completely immersed within the first

few pages of the book. It's certainly a unique concept: the book begins with the star Sirius on trial for a crime he claims he didn't commit. Found guilty, he is sentenced to life in a single solar system, where he will have the opportunity to put things right. If he succeeds, he will be restored to his astral position; if he doesn't, he will live out his allotted lifespan and die. The fates having a sense of humor, he's born on Earth as a dog. And the story presents a dog's view of life masterfully. The book was written in 1975, but is timeless--the humans characters could as easily move through this century as the last. There's an underdog appeal in the story of Kathleen, the human who champions and cares for Sirius as he grows. The daughter of an IRA terrorist, she is the unwanted/misused ward of her English relatives. Readers will likely care for this girl as much as the protagonist. I've read several of the author's books before, most recently *_Howl's Moving Castle_*, and find that this book, like that, is appropriate for young adult readers without being dumbed down or prettied up for them. I finished it in a day, and immediately set it into the "to read" pile of my 9-year-old son.

Good Book

By Connie Davis

I've read a few books by DWJ, with mixed results. I enjoyed this one. Cute story. Have to be hard-hearted not to connect with this puppy. Not a perfect ending (unless there's a sequel in the works), but then life isn't perfect, and seldom can we have everything we'd like.

Irony Maketh a Great Tail

By Dawn Merrill

And what irony! a great near all powerful celestial luminary doesn't have a life worth living; but a simple hunting dog does. He had near limitless power but could not see things as they really are. A skinny Irish waif has to drag him by his leash before he understands the use of force, or learns to control his temper. Everyone has to have the power of life or death over him before he discovers how to spot kindness, or how ice cream is more wonderful than tracking the mystic loi. The fuzzy dog brain is much better at spotting the real friends that the a super intelligent luminary ignored or resented. And a dog's best friends? - the cats.
