Heat Level: Scorching!

The Taken By Cowboys series features ripped billionaire Cowboys, tanned rugged ranchers, a curvy heroine and steamy ménage romance!

Jess Jones is sick of life in New York City.

Her work hours are endless and her manager treats her terribly - apparently that's what you get when you're a curvy girl working in fashion PR.

When Jess receives a brochure for a retreat on a guest ranch in Wyoming, she finds herself drawn to the prospect of spending some time on a quiet ranch out West. After speaking with a mysterious, flirtatious man who works there, she boldly decides to quit her job and leave for the ranch.

But her outdoor getaway might be a little more...invigorating than she thought. That's because the mysterious voice on the phone belongs to a dark, handsome cowboy named Spencer--who is best friends with a playful, confident rancher named Nate.

Two cowboy hunks? Jess is in for two times the trouble.

No cliffhanger warning!

By PA Mom

I hate when I read a synopsis and it doesn't tell you To Be Continued. If I would have know this I would

have never gotten part one.

All in all it was an ok book. Overworked burned out city girl needs to get away. She quits her job and books a month long trip to a dude ranch in the west. There she meets a couple of hot cowboys, one of which may be the man of her dreams...

I probably won't read book two. If they would have made it all one book then maybe I would but when they try to trick you with a freebie for part one and then ask you to pay for the rest, I don't think so.

teasing come on

By Sugar

Well written interesting but really can't fairly rate because it's a come on tease..... Not a book review. Stop with number of words needed

just ok

By Sarah Katherine

I thought this book (and this series so far) has been just ok. I don't particularly like it when books have the multi-part books (but I will read some of them if I am enjoying enough to continue). However, I thought this book was just alright so far. It may have gotten more interesting for me in future books, but I wasn't really interested enough to find out.

That is the danger in these multi-part books. Its possible that I would have really ended up enjoying this book and this author, but I won't bother to download the rest of the book parts and find out since this first part wasn't that interesting for me. However, if this book had been all together, so that I wasn't taken out of this story to have to go get another part of it, I likely would have kept reading the book until the end (I don't tend to give up on books unless I really hate them).
