Son's Favorite Books!!!

By Mujnmom

We are going to continue going through the entire series with the same ratings, WE LOVE THESE BOOKS!!! These are my 7 year old's first graphic novels and they are his favorite set of books. I admit that I really enjoy them, too. We are both Ninjago fans and we look forward to every next book in the series. Just can't go wrong. Only thing I can say negative about it is small small print, but being a graphic novel, I guess it is the nature of the beast- parents, get out your magnifiers! And enjoy these with your kids.

GREAT! GREAT! GREAT!

By Cheli

Gotta have them ALL!!!! Have reviewed today books 1/2/3 and now 5 (son already had #4) . These are so terrific for my boys and this series just keeps gettin better with every new volume and I know I've made a great investment in my children's future with these books. We have book 1-5 now and even though the boys have huge bookshelves overflowing with books, they (8 & 4) are caught sitting with these CONSTANTLY. I've read them all as well since my 4 year old is just starting to read on his own but nothing as grand as this yet, and I as an adult get caught up in the story line as well and before you know it you are at the end of the book and if you don't have the next one in the series, well your no longer popular with your kids. I will be buying the next one's in the series and doing so right here. You can't beat the price here nor the shipping speed or how well the product is intact when it arrives than from this very spot. The #4 book that started this frenzy for my son came from an overpriced book fair and in already browsed thru condition. So I buy from the source I trust most (HERE) and best price/quality/value.

My grandson loves this show and in order to get him to read I ordered everyone of these books. Guess what, he laid/sat on teh couch and read every one of them. Nice tool for kids who are not great fans of reading.
