These books are great. My daughter got good scores N Y state exam from these books.I recommended to my supervisor and he bought these books too. Later he was very happy because his son got a great scores too.0 of 0 people found the following review helpful.

Not for the common core

By Goliad

While this is a fine book, don't buy this expecting it to cover the same material on the common core. Also, don't expect the common core to prepare your kid for much more than re-oiling their robot masters.0 of 0 people found the following review helpful.

Perfect for homeschooling

By Katie

This gives good basic explanations of math concepts and solid review and practice problems. Not too long, not too short!See all 5 customer reviews...
