Awful Book

By Amazon Customer

The Kindle version is just awful and the book's style too. It is almost non-readable, since after each sentence there is at least 1 space, it felt like the book was converted to a format which will match Kindle just to make some extra bucks without taking the reader (=user!!!) into consideration.

It seems like there was no editor for the book. There are even spelling and grammar mistakes!!!

Helpful Book

By Fred Fanning

This is a very helpful book. It prepares the reader for the PSM exam. After reading I went to the PSM free exam and it is obvious this book prepares the reader.

... it was worth the price as it read more like a recorded conversation rather than a carefully planned out

By Amazon Customer

I didn't feel it was worth the price as it read more like a recorded conversation rather than a carefully planned out, organized, and edited guide book. I was almost laughing at some parts on how poorly it was written and then I reminded myself I paid for it.
