SHAMANS GIVEN THE VOICE OF PRINT !!!!!

By jorma

This is a classic, A true voice of the shamans ! The entries, or Shamans given a voice of print here is greatly varied, time wise (Shamans may disagree here) and geographically. What I really love about this volume is that it produces what the title implies. The author does indeed let the Shamans have their say, accompanied by her more than able prose, this book is surely a sublime offering of wisdom and is true art!!!! From Crow Dog to Black Elk to Sereptie to Maria Sabina to Manuel Cordova-Rios to Isaac Tens to Prem Das to many others, if you can find a more varied source of true Indigenous Shamanic wisdom, Please let me know, because it would already be in my Cart !!!! HIGHLY RECOMMENDED !!!!

One of the Best.

By Willhum

Books on shamanism tend to be quite a mixed bunch in terms of quality. Shamanic Voices though is one of the best and most authentic (steering well clear of the flakey "new age" type of shamanism). I would also recommend highly Wizard of the Upper Amazon or any book by Jeremy Narby. Joan Halifax has collected a variety of writings in this book, my favorite of which is the artic shamans and also the slightly sad story of the aboriginal Australian shaman who lost his power. This is one of my favorite books and comes highly recommended!

The Real Deal

By Feral Puma

This book is for the serious apprentice, though it's possible casual readers might enjoy the stories as well. Those looking for new age fluff should pass on this text, until they can learn to appreciate hands-on techniques 'solitude & suffering to transcend' and other fun topics like that. I've read many books on shamanism over the years but this one is the one I'd prefer to keep with me in place of all the others. This and perhaps Shapeshifting by John Perkins.
