THE CATCHING KIND (BREW HA HA #3) BY BRIA QUINLAN, CAITIE QUINN PDF

Hailey Tate thought she was worth more than a straight flush.

Apparently not.

When camera-shy author Hailey Tate's agent loses a bet and brokers a deal, it leaves Hailey in the last place she wants to be: backed into the corner of Publicity and Paparazzi. Now, thanks to her girl-next-door image and role as pretend girlfriend to a womanizing shortstop, she's getting the attention she always managed to avoid.

Connor Ryan is not only America's Sexiest Athlete, he's also the current Bad Boy of Baseball. But when he goes a base too far, management wants to bench him...permanently. One thing he never counted on? Falling for his sweet, fake girlfriend. He's the guy who can catch anything and now she's next on his list

Great characters in this swoon worthy romance

By Sue Reviews

Caitie Quinn is becoming one of my favorite authors, This book didn't disappoint, Thank goodness I had insomnia last night and this kept me entertained for several hours. The author did a beautiful job of creating the characters. By the end of the story I was so concerned there might not be a happily ever after that I felt teary. I was really drawn into this story, I LOVED the main character. She was strong, smart, interesting and vulnerable all in one package. I hated the hero at first but he quickly charmed me. This book could be read as a stand alone, but if you have read the others in the series you will appreciate that many of those same characters are in this story too. This book is free of sex scenes which I for one appreciate. But don't worry, there is definitely chemistry between the characters. If you love a good romance give this a try, Happy Reading!

Well paced, Squeaky Clean Romance

By Ruby Reads

Connor, a Major League baseball player, must repair his jaded reputation and Hailey, a good girl young adult novelist needs more publicity to increase her marketability. Their agents decide that the two should see each other for a month of dates to generate publicity for both of them. However, their first meeting doesn't go well when the novelist shows up in frumpy looking yoga pants and wet hair. The handsome baseball player, who dates models, is not impressed and makes a derogatory comment about how she looks. She sees him as a rude man whore. Even so, they both are convinced by their agents that their situation demands this action to improve their reputations in their professions.

What follows is a story sometimes humorous, sometimes sad, but very readable.

I enjoyed the story, but felt there definitely was a lack of sexual tension. While sex scenes are not always necessary, sexual attraction should be part of the equation in a romance. This is what I felt the story lacked. There were only two kisses in the entire book

Written in first person limited the author in telling the story, because we don't really learn anything about the hero's life, what he did during the day, or his feelings for the heroine. His brother Gavin visits Connor but we don't learn anything except his name. He could have been used to let the readers and Hailey know something more about Connor but she never meets him.

Overuse of eye rolling and angry retorts by Hailey detracted from the story in my opinion. While these things didn't bother the majority of reviewers, they did bother me.

Because of this couldn't give this more than 4 stars.

Forced Lovers to Real Friends and More

By AddictedReader

4 Forced Lovers to True Friends....Stars * * * *

Right after finishing this book, this crossed my mind...

You know when you see a movie and it is about making a movie... you get to experience all the parts usually hidden...like the process of shooting Day for Night. This process allows the cameras and film to be like night even though they are shot during the day...A movie of the same name in 1973 by Ferrand Truffaut was made and it covered exactly this and used it as metaphor for the goings on and romances on the set during the filming.

I mention all of this because in this book the subject isn't movie making but involves authors, books, PR, connections and the process of marketing...things, we would be interested... and puts it together with the need to redeem a playboy sports figure with a "nice" girl....and said nice girl is a YA author. She is mildly successful but totally uncomfortable with interviews, photo opportunities or social media.

Hailey becomes paired with the mega sports star Connor because of a legendary, whispered about but never revealed poker game played by only the top agents, movers and shakers in the entertainment/sports/media world. To get a seat at the table is like being a part of an inner circle that doesn't exist... no one knows how to become part of it...yet everyone hopes to be there at some point in their career...and to stay there once there...that is the key.... Because deals, careers and fortunes are made there.

Hailey's agent, Caroline has made the cut... she is part of the inner circle and during the most recent poker game...made a bet she thought she couldn't lose...but she did... and now she has to pay up... Meaning Hailey will...and this is where all the fun begins...

Dex, the winning PR extraordinaire, won the bet...The deal is he needs a Nice Girl for his Playboy superstar baseball player pronto... to clean up a serious image problem... and Hailey's demographics of readers fits the

bill... so she will be his Nice girlfriend for a month; clean up his image and then fade out... it will be a win win for everyone because she has a new book coming out... she can piggy back on his charming way with the press and get a little experience of not screwing up her interviews, etc...and all will be happy... at least that is the plan from the agents' perspective...

What takes place is something a little different... From a disastrous encounter to the rude and hurtful first official meeting... this had all the signs of not working... he said things which cut to the bone...she had her own history which made them even more sharp... but she also had a true sense of who and what she believed in... and held to it.

Connor was a man who had learned lessons... wanted to be better but really thought he was best alone. Experiencing things from Hailey's perspective opened his eyes... made him understand much more about being undervalued... what it felt like and how it could make one react... As the two of them play this game of dating... both begin to view each other differently... they become friends... and maybe more...

What was such a treat in this story was the realism about writing... how it isn't all fun a games and easy. There were discussions about timelines and days of deadlines; there were book readings and tours... and the idea of others not seeing it as a real profession.

There was depth in the characters and how they interacted... he was much more than the public knew... or what she had thought... She was strong and I admired it... but she also held onto the hurt feelings, I felt, for longer than necessary... then again... I am a bit of a softy...

There were interesting secondary characters and due to this being part of a series... I could see how all of them were so close together... It didn't take away...just made me make a mental note to look up the other books for future reading.

If you are interested in smart dialogue; the makings of PR and inside stuff with a sweet story of how two different people can be just the right blend...then this will be a satisfying read.
