The Merry Gang: They Were Rock and Roll Before There Was Rock and Roll

--> Put The Wit and Humor of the Original Bad Boys of History to Work For You to Attract and Seduce the Women You Really Want

They were badder than any metal band from the 80's, full of wit and humor and reckless seduction. They were the members of the court of King Charles II, English noblemen who drank, partied, womanized and created scandal after scandal... in the late 1600's.

The exploits of the Merry Gang are, quite frankly, hilarious. They would put any contemporary Hollywood Celebrity (including Charlie Sheen) to shame, and their exploits would land them in jail today... In their time, they could have had their heads cut off, yet they paid no heed to the potential consequences of their debauchery. They were rock star romance at its finest.

They were rakes and raconteurs, yet they were also upstanding members of society, patrons of the arts, law makers, admired and envied by many of their time. And this is the real reason why they are worth reading about... Despite their reckless exploits, these men were attractive to the general public of the day, especially women, who found them irresistible. If you are man interested in how attraction really works, you must pay close attention to the Merry Gang.

My name is John Alanis, and for the past 8 years I have given all kinds of different men dating advice on how to attract the women they really want, no matter their looks, age, income, social status or past failures with women. One thing I recommend, that few men follow is studying past great lovers of women, a series of bad boys of history if you will.

Human nature is unchanging, and the male behaviors that worked to attract women hundreds of years ago work even better today. Think about it: the Merry Gang had no internet, no dating sites, no phone, no cars, no guitars, no amplifiers, and no stage yet they seduced many beautiful women in an age with severe social consequences for doing such a thing. Imagine what their secrets could do today, if you knew them! The Merry Gang was the first heavy metal band ever, centuries before the term was even invented. They were that bad, and they were that good.

Here's good news: I have just released a book that reveals, in detail, how the Merry Gang seduced so many women, and how you can use their secrets and behaviors to attract the women you really want, even that special one in this day and age. What's remarkable is how well what the Merry Gang did works in this day and age... You must be careful not to attract too many women too fast with their attraction secrets.

This book is a part of the Bad Boys of Romance History Biographies & Memoirs Seduction Series, the #1

seduction series every man should own. It is probably the most hilarious book of the set, causing you to laugh out loud as you read about one outrageous exploit after the next.

All you have to do is click the orange button above and The Merry Gang's secrets are yours forever

Clever portrait of the Merry Gang and lessons for today's men!

By Super Reader

Very interesting read. You get a piece of history with the lessons for today. Theo describes the characters from those times and puts them in perspective of what men can learn today for their behaviours with women. Very clever analysis and very original. I don't think anyone has written this kind of material. It's really enlightening to read each personality's bio and history and then see what lessons we can draw for today. You may even recognize yourself in one of those characters. Fascinating!
