Elster Strikes Gold Once Again.

By Gary Rozier

Elster has done it again with his latest vocabulary building program. I must admit that I was expecting the format to be similar to Verbal Advantage in that after every level, there was a quiz that wasn't just about the words in the level you just completed, but it would also include questions about some of things he would share about the words that were related to other words as well as their origins. There was no pretest or posttest, either (which didn't bother me because this edition was more of a straight read through aside from the familiar quizzes after every ten words). A good number of the words in Word Workout came from Verbal Advantage- he just used them as synonyms for the words in Verbal Advantage, but he expounded on those words in Word Workout. You'd only know that if you perused Verbal Advantage over and over... and then over and over, again (as I have for the past several years). Nevertheless, Elster did an outstanding job with his latest work; it was well worth the wait. I recommend it for the casual word lover, to the serious logophile.
