Highly recommend!

By Arlene

I love this novella that ties into the Yellowstone series that once again brings together a few of my favorite hero's and heroines from the other books. Daniel and Aimee, Chase and Sarah, Dan and Jana, all very strong characters that are hard to let go and close the book when you reach the end. Peggy L Henderson is a wonderful writer and her stories pull you in from the first page until you have read the final word and than you want to start all over again. This book has the humor, romance, love of family and a little suspense that you always expect from this author along with the beautiful descriptions of Yellowstone National Park. I highly recommend this and all of her books. Start with the first, Yellowstone Heart Song, it's free to get you started on a book you won't be able to put down, I promise! JudyE

A novella that just adds more good to the Yellowstone Series and gives you a whole lot more in less words.

By Dorothy A. Roller

This novella is just as fulfilling to the reader as the full novels. It has a purpose as a shorter story and it pulls at the heart strings like the other books in this series. This story starts to tell a greater planned story than what you would expect and I greatly enjoyed it more the second time around. I am rereading the whole Yellowstone series and I learn more and remember more from each book now and wow I have to say rereading these fantastic stories is making me wanting more as I learn so much in each on the second time around.

This has the love, the tug on the heart strings, the adventure and even more time travel which the family of Daniel, Aimee and Chase and Sarah didn't think was possible. It has twists and turn you have come to expect in this series and all of Peggy L Henderson's stories. The endings are not always what you think and always leaves you wanting more. This one brings together much beloved characters from past and future and brings a mom and son even together which was unexpected.

I loved this story even better the second time and learned just so much that I hadn't remembered.

This is another MUST READ and all Yellowstone series lovers. Even if you haven't started reading this series you MUST read it.

But start with Yellowstone Heart Song the first book in the series. I guarantee if you love history, have been to and love Yellowstone National Park, love romance and adventure and even heart pounding suspense start reading these books. Peggy Henderson will quickly become a favorite author.

If you already have read the books read them again as you remember so much you have forgotten.

Revisit Old Friends!

By Shirl

If you liked Yellowstone Heart Song and Yellowstone Redemption, you are going to love Yellowstone Promise. You will revisit with old friends, Aimee, Daniel, Chase and Sarah. Among some others you might know. I think this is one of Peggy Henderson's best writing. The story brings out emotions in you, takes you to places that are filled with detail and makes you feel like you are right there living it with them.

The adventure and surprises are just as strong as the first book if not more exciting. This will make you laugh cry and hold your breath and pull at your heart.

The only con to this book is that it is a novella, but it has as much interest and fulfillment as a regular size book. You will get lost and caught up in the story and love it as you do all of this author's books.

A must read!
